

PROFESSIONAL EXPERIENCE

M3iworks, Inc., *Mar. 2006 - Oct. 2007* **Web Application Designer and Developer**

Communicate clearly and effectively with project managers, clients and peers.

Work with copywriters and clients to optimize their site for the most dominant search engines.

Played a key role in design and development process where I led design and discovery meetings.

Perform quality assurance and user testing before product delivery and deployment.

Craft XHTML, CSS, JavaScript, ActionScript 3.0 and Flash animations.

Develop projects using technologies such as Ruby, PHP, MySQL as well as leveraging frameworks such as Ruby on Rails, CakePHP, and CodeIgniter.

Configure, maintain and utilize Subversion as a source control management system to stay effective, organized, and synchronized with my colleagues.

Train 30 SJSU Staff Members at San Jose State University on Section 508 and ADA Compliance.

Zumiez, Inc., *Oct. 2004 - Feb. 2006* **Sales Associate**

Customer Service – Developed customer service skills while working at a retail store.

Task management – Leveraged to maximize efficiency.

Detail oriented – Maintain sections of the store require fine attention to detail of how products are displayed.

SEEKING INNOVATIVE WEB DESIGN AND DEVELOPMENT OPPORTUNITIES FROM CONCEPT TO PRODUCT DELIVERY.
